

Unleash the power of our partnership
We will win the race to market and create
a successful future together.

KNT partners with you right from initial concept, through implementation. We'll be there for you to develop new ways to take advantage of the latest technologies and help grow your business more quickly and profitably.

We have learned that time is *always* of the essence. The sooner KNT provides you with end-to-end systems integration solutions, the sooner we can turn your communications vision into reality.

Please accept our cordial invitation to meet with us to discuss your business needs and goals. Visit our website and see how KNT and POWER•10 can help ensure your success. E-mail us or call and talk to one of our experienced professionals about any questions you may have. We are ready to serve you and will respond to your call or email by the end of the next business day.

From concept, implementation and support, you can be confident of putting all your networking "eggs" in the KNT basket. We are the right partner for you. We know the industry. We know what you need. *We Get It Done!* ◀▶

ClearStar[®] Advantage

Network Service and Telephone Equipment All In One

KMC Telecom's **ClearStar Advantage** Service is a feature-rich, yet simple, reliable and cost-effective telephone system for your business. **ClearStar Advantage** delivers the sophistication of Key System and PBX functionality without the large capital investment and ongoing maintenance of those systems. With KMC Telecom **ClearStar Advantage** Services, you can pay one low monthly fee to one single-source provider for all your telecommunications needs.

ClearStar Advantage provides you the following:

Simplicity – The system's "intelligence" that is located in KMC Telecom's central office is transported directly – and transparently to your desktop. You don't have to worry about space for bulky telephone system equipment or personnel to maintain it.

Total Reliability – KMC Telecom provides state-of-the-art telecommunications services utilizing a digital switch and a fiber-optic network. KMC Telecom continually upgrades its system so you can count on having the most modern telephone system available. For one low monthly payment you can enjoy using a state-of-the-art multi-million dollar phone system.

Cost Efficiency – One low monthly fee can provide you with KMC Telecom's **ClearStar Advantage** Service, telephone set rental and complete maintenance on both inside wiring and telephone sets.

- No need to purchase an expensive telephone system – equipment is leased on a monthly basis
- No expensive maintenance costs – maintenance is included
- No need to worry about having an outdated telephone system before it is fully paid for – upgrades are automatic

Peace of Mind – You won't have to worry about your lines, wiring or equipment – KMC Telecom will take care of it for you. One provider, one invoice, one number to call – KMC Telecom.

Contact your local KMC Telecom office or the KMC Network Center at **1.888.KMC THE 1** (562-8431) or visit us at www.kmctelecom.com
